

SHOAIB SHARIF

FULL STACK DEVELOPER

Email: me@shoaibsharif.dev | Phone: (714) 406-8434 | LinkedIn: /in/shoaibsharif | Github: /shoaibsharif

As a Full Stack Developer , I specialize in both frontend and backend technologies. I excel in designing and delivering high-quality software solutions through expertise in Full-Stack Developer. Known for innovation and effective collaboration, I am proficient in Laravel and Node.js. My commitment to staying current with emerging technologies ensures the delivery of cutting-edge solutions.

Skills

FrontEnd: JavaScript, **React.js**, **Vue.js**, MaterialUI, TailwindCSS, Next.js, Nuxt.js.
Backend: **Laravel**, **Node.js**, **NestJS**, Stripe API, **GraphQL**, SQL, MongoDB, AWS.
Technologies: Docker, Github Actions.

Experience

Software Engineer

06/2024 to Present

DataBP

- Collaborated with cross-functional global teams in an agile environment, participating in daily stand-ups, sprint planning, and retrospectives
- Developed and maintained single-page applications using Vue.js, creating responsive user interfaces for data visualization.
- Implemented automated testing suites including unit, integration, and functional tests to ensure code quality.
- Managed Git workflows and implemented CI/CD pipelines using GitHub Actions
- Applied agile/Scrum practices to effectively prioritize tasks, manage sprints, and deliver incremental product improvements
- Contributed to the migration of legacy systems to modern technology stacks

Full-Stack Developer

09/2021 to 02/2022

Self-Employed

03/2024 to 06/2024

- Demonstrated versatility in working with diverse clients and project requirements.
- Communicated to the successful completion of various website projects.
- Engaged in effective problem solving and troubleshooting throughout the development process.
- Proficient in full-stack development, specializing in **Laravel**, **ReactJS**, and **NodeJS**.
- Demonstrated expertise in building dynamic and scalable web applications from conception to deployment.
- Extensive experience collaborating with clients to gather requirements, develop project scopes, and deliver tailored solutions.
- Skilled in front-end development with ReactJS, including state management, component-based architecture, and responsive design implementation.
- Strong backend development capabilities using Laravel framework, encompassing RESTful API development, database management, and server-side logic implementation.
- Experienced in utilizing NodeJS for building efficient and lightweight server-side applications, including real-time features and asynchronous operations.
- Proven track record of delivering high-quality code adhering to best practices, including code optimization, documentation, and version control using Git.
- Proficient in deploying and maintaining applications on various hosting platforms, including AWS, Heroku, and DigitalOcean.
- Familiarity with agile development methodologies, including Scrum and Kanban, facilitating efficient project management and collaboration within teams.

- Continuously staying updated with the latest technologies and trends in web development to ensure the adoption of best practices and enhancement of skillset.

Skills: TypeScript, JavaScript, ReactJS, Laravel, NodeJS, MongoDB, MySQL

Software Engineer

02/2022 to 03/2024

[Notary.io](https://notary.io) d/b/a TechOne Plus

cutting-edge SaaS platform provides secure online notarization and e-signing services across various industries. From legal, title, and real estate to insurance, fintech, and healthcare — a diverse business sector.

- Demonstrated ability to create responsive and optimal design using **HTML** and **CSS**.
- Experienced in implementing dynamic and interactivity using **JavaScript**.
- Strong understanding of web standards and best practices for front-end development.
- Creating responsive user interfaces using **VueJS** and **NuxtJS**, ensuring an optimal user interface.
- Proficient in server management responsibilities.
- Specialization in creating scalable and efficient server-side solutions using Laravel, NestJS, express etc
- Committed to delivering high-quality software aligned with user expectations and business objectives.
- Applied best practices for security, performance, and scalability in web development
- Collaborated with cross-functional teams to meet project goals and deadlines

Skills: HTML, CSS, JavaScript, Vue, React, NuxtJS, Laravel, MySQL, Server Management, QuickBook API, Docker, ZohoBook, Daily.co, Stripe Identity.

Full Stack Developer

04/2019 to 02/2022

electrothemes.com

Electronthemes is an online theme selling platform where customers can purchase, download themes and get support if needed.

- Created tables in SQL databases utilizing Primary and Foreign Keys.
- Utilized RESTful API service via Laravel to connect to PostgreSQL server hosted on AWS.
- Implemented user dashboard in React for order history and able to download purchased themes.
- Implemented role-based dashboard routing using Laravel permission to ensure security throughout the app.
- Built custom CMS to allow admins to manage products and upload the theme files to AWS S3 so that the customers can download the product after they have successfully purchased it.
- Implemented Stripe Checkout system for secure payment flow.

Skills: React, Vue, Laravel, PHP, InertiaJS, OOP, SQL, Javascript, TailwindCSS, Stripe API, AWS, MongoDB, NodeJS.
